

# Exhibit A

```

                                compcarry
//$c22 MMD 10/14/03 SPR 174696 added isRestructuring flag to
moMate2Geoms_c*::iCopyMate().
//$c21 MLK 06/05/03 SPR 180661 Converted iEmptySrcSubAssem to
iEmptySrcSubAssemHandle to store model handle instead of pointer
//$c20 JRK 12/01/00 SPR 90173: added iResetExtObjs()
//$c19 SRK/DRD 06/23/2000 IA64 Porting Tool, Update to use SWCC library, and derive
all objects from su_CObject
//$c18 JT 09/07/99 moCompRestructurePackage_c::clear does not return a value -
declare as void
//$c17 KDH 05/26/99 Bug number: 56722, etal added iRestructureExtRefWrappers,
iRestructureExtCompToTargets, iUpdateCompRef, updateContextHolder, and removed
block of moving parts with external context.
//$c16 KDH 04/29/99 added calls to block autosave of assembly during restructure
//$c15 KDH 04/24/99 Bug number: 52177 Redid dissolve to handle displaying
warnings.
//$c14 KDH 04/19/99 Bug number: 51499 add iListReferencedEqns
//$c13 KDH 04/15/99 Bug number: 53589 add moReference_c::canBeMoved.
//$c12 KDH 04/10/99 Bug number: 51616 added argument to insertNewSubassembly
//$c11 AJO 04/09/99 Add restructuring support for routing assemblies.
//$c10 HZL 03/18/99 Bug number: 52983, 52982, 52981 fix A bugs related to
component reorder
//$c9 KDH 03/13/99 Project name: 2052 added processCompCarry and
createCompCarryList to replace carryOut. These methods retain configuration
information on component
//$c8 HZL 03/10/99 Project name: 2052 Two functions are added. haveCommonComponent
and hasZoneComponent
//$c7 JPD 01/08/99 Took care of mates to sub-assembly's components when moving
subasm, renamed restructure to carry(), do not empty sub-asm when dissolving;
Project 2052
//$c6 JPD 01/06/99 Implemented feature moves to a destination different from the
component's, global view
//$c5 JPD 12/29/98 Added hasFeaturesToDelete(), prepareCarries(), some bug fixes;
//$c4 JPD 12/22/98 Added validateSourceComponents(), findFirstRef(),
iReorderComponents(), restructureAll(), insertNewSubAssembly(),
formNewSubAssembly(), dissolve()
//$c3 JPD 12/17/98 Added matchParent(), matchTarget() and
validateSourceAndTarget()
//$c2 JPD 12/16/98 Derive from CObject; Project #2052
//$c1 JPD 11/05/98 Created
